Introduction

This report presents the results of the October 1, 2017 actuarial valuation for the Retirement Plan for the General Employees of the Southern Manatee Fire & Rescue District. The report is based on the participant data and asset information provided by the pension plan administrator and, except for a cursory review for reasonableness including a comparison to the data provided for the previous valuation, we have not attempted to verify the accuracy of this information.

The primary purpose of this report is to provide a summary of the funded status of the plan as of October 1, 2017 and to determine the minimum required contribution under Chapter 112, Florida Statutes, for the 2017/18 plan year. In addition, this report provides a projection of the long-term funding requirements of the plan, statistical information concerning the assets held in the trust, statistical information concerning the participant population, and a summary of any recent plan changes.

The liabilities and cost presented in this report are based on numerous assumptions concerning the cost of benefits to be provided in the future, long-term investment returns, and the future demographic experience of the current participants. Anyone referring to this report should remember that the cost developed herein is only an *estimate* of the true cost of providing post-employment pension benefits. No one can predict with certainty whether the true cost will be higher or lower than the cost presented in this report. The calculated cost is entirely dependent upon the assumptions that are described in Table IV-A. If any of the assumptions is changed, then the cost shown in this report will change accordingly. Likewise, if any of the assumptions is not completely realized, then the cost shown in this report will change in the future.

Certain assumptions play a bigger role than others in determining the cost of the post-employment pension benefits. In some cases, relatively small changes in a particular assumption can have a dramatic impact on the anticipated cost of benefits. Although a thorough analysis of the impact of such changes is beyond the scope of this report, Table I-B illustrates the impact that alternative long-term investment returns would have on the normal cost rate.

Minimum Required Contribution

Table I-A shows the development of the minimum required contribution for the 2017/18 plan year. The minimum required contribution rate is 39.74% of covered payroll, which represents a decrease of 7.07% of payroll from the prior valuation.

The normal cost rate is 38.37%, which is 6.83% of payroll less than the normal cost rate that was developed in the prior valuation. Table I-C provides a breakdown of the sources of change in the normal cost rate. Significantly, the rate decreased by 6.72% of payroll due to investment gains and decreased by another 0.11% of payroll due to demographic experience. The market value of assets earned 13.36% during the 2016/17 plan year, whereas a 7.00% annual investment return was required to maintain a stable contribution rate.

Chapter 112, Florida Statutes, sets forth the rules concerning the minimum required contribution for public pension plans within the state. Essentially, the District must contribute an amount equal to the annual normal cost of the plan plus an adjustment as necessary to reflect interest on any delayed payment of the contribution beyond the valuation date. On this basis, the District's 2017/18 minimum required contribution will be equal to 39.74% multiplied by the total pensionable earnings for the 2017/18 fiscal year for the active employees who are covered by the plan.

Based on the current assets, participant data, and actuarial assumptions and methods that are used to value the plan, the present-day value of the total long-term funding requirement is \$3,607,183. As illustrated in Table I-A, current assets are sufficient to cover \$2,774,541 of this amount, the employer's 2017/18 expected contribution will cover \$152,596 of this amount, and future employee contributions are expected to cover \$69,597 of this amount, leaving \$610,449 to be covered by future employer funding beyond the 2017/18 fiscal year. Again, demographic and investment experience that differs from that assumed will either increase or decrease the future employer funding requirement.

Contents of the Report

Tables I-D through I-G provide a detailed breakdown of various liability amounts by type of benefit and by participant group. Tables II-A through II-F provide information concerning the assets of the trust fund. Tables III-A through III-G provide statistical information concerning the plan's participant population. In particular, Table III-G gives a 10-year projection of the cash that is expected to be required from the trust fund in order to pay benefits to the current group of participants. Finally, Tables IV-A through V-B provide a summary of the actuarial assumptions and methods that are used to value the plan's benefits and of the relevant plan provisions as of October 1, 2017, as well as a summary of the changes that have occurred since the previous valuation report was prepared.

Certification

This actuarial valuation was prepared by me or under my direct supervision and I acknowledge responsibility for the results. To the best of my knowledge, the results are complete and accurate and, in my opinion, the techniques and assumptions used are reasonable and meet the requirements and intent of Chapter 112, Florida Statutes. There is no benefit or expense to be provided by the plan and/or paid from the plan's assets for which liabilities or current costs have not been established or otherwise taken into account in the valuation. All known events or trends which may require a material change in plan costs or required contribution rates have been taken into account in the valuation.

 For the period October 1, 2025 through September 30, 2026 \$314,202
 For the period October 1, 2026 through September 30, 2027 \$326,110

Summary of Actuarial Methods and Assumptions

Table IV-A

NOTE: The following assumptions and methods have been selected and approved by the Board of Trustees based in part on the advice of the plan's enrolled actuary in accordance with the authority granted to the Board under the pension ordinances and State law.

1. **Actuarial Cost Method**

Aggregate cost method. Under this actuarial cost method, a funding cost is developed for the plan as a level percentage of payroll. The level funding percentage is calculated as the excess of the total future benefit liability over accumulated assets and future employee contributions, with this excess spread over the expected future payroll for current active participants. The normal cost is equal to the level funding percentage multiplied by the expected payroll for the year immediately following the valuation date. The actuarial accrued liability is equal to the accumulated assets. Therefore, under the aggregate cost method, no unfunded accrued liability is developed.

2. **Asset Method**

The actuarial value of assets is equal to the market value of assets.

3. **Interest (or Discount) Rate**

7.00% per annum

4. **Salary Increases**

Plan compensation is assumed to increase at the rate of 4.00% per annum, unless actual plan compensation is known for a prior plan year.

5. **Decrements**

- Pre-retirement mortality: Sex-distinct rates set forth in the RP-2000 Combined Mortality Table, with full generational improvements in mortality using Scale BB
- Post-retirement mortality: Sex-distinct rates set forth in the RP-2000 Combined Mortality Table, with full generational improvements in mortality using Scale BB
- Disability: Age- and gender-based rates of disability were assumed, ranging from 0.067% for males and 0.040% for females at age 25, 0.119% for males and 0.118% for females at age 35, 0.462% for males and 0.435% for females at age 45, and 1.000% for males and 0.840% for females at age 55.

Summary of Actuarial Methods and Assumptions

Table IV-A

(continued)

- Termination: With respect to participants with less than 10 years of service, the termination rates are both gender- and service-based, ranging from 15.00% for males and 10.01% for females with less than two years of service to 4.30% for males and 4.75% for females with between eight and 10 years of service; with respect to participants with at least 10 years of service, the termination rates are both gender- and age-based, ranging from 4.28% for males and 5.41% for females at age 25 to 0.00% for both genders at age 55.
- Retirement: For those participants who have met the age and service requirements to retire, retirement is assumed to occur at the rate of 10% per year during each of the three years prior to normal retirement age; alternatively, 40% of participants who reach their normal retirement age are assumed to retire immediately, with 20% assumed to retire during each of the next two years after the attainment of normal retirement age and 100% assumed to retire three years after the attainment of normal retirement age. No early retirements are assumed to occur prior to age 50.

6. Form of Payment

Future retirees have been assumed to select the 10-year certain and life annuity, except that participants who are under age 40 or who have earned less than 15 years of service are assumed to receive a refund of their employee contributions.

7. Expenses

The total projected benefit liability has been loaded by 2.50% to account for anticipated administrative expenses. In addition, the interest rate set forth in item 3. above is assumed to be net of investment expenses and commissions.

Changes in Actuarial Methods and Assumptions

Table IV-B

No assumptions or methods have been changed since the completion of the previous valuation.

The following additional assumption and method changes were made during the past 10 years:

- (1) *Effective October 1, 2016, the mortality basis was changed from a 2015 projection of the RP-2000 Mortality Table for annuitants to a full generational projection using Scale BB of the RP-2000 Combined Mortality Table as required by State law.*
- (2) *Effective October 1, 2013, the interest (or discount) rate was decreased from 7.50% per annum to 7.00% per annum.*
- (3) *Effective October 1, 2013, the assumed increase in future salaries was changed from a range of rates based on service (8.00% for employees with less than one year of service, 7.00% for employees with at least one but less than two years of service, 6.00% for employees with at least two but less than three years of service, 5.50% for employees with at least three but less than four years of service, and 5.20% for all other employees) to a flat 4.00% per year.*
- (4) *Effective October 1, 2013, the mortality basis was changed from the RP-2000 Mortality Table, projected to 2007 by Scale AA, to the RP-2000 Mortality Table, projected to 2015 by Scale AA, both as published by the Internal Revenue Service (IRS) for purposes of Internal Revenue Code (IRC) section 430.*
- (5) *Effective October 1, 2009, the mortality basis was changed from the 1983 Group Annuity Mortality Table to the RP-2000 Mortality Table for annuitants and non-annuitants.*
- (6) *Effective October 1, 2009, the administrative expense assumption was changed from a flat \$4,500 per year to a 2.50% loading of the total projected benefit liability.*

Summary of Plan Provisions

Table V-A

1. **Monthly Accrued Benefit**

2.50% of Average Final Compensation multiplied by Credited Service

2. **Normal Retirement Age and Benefit**

- **Age**

Age 62 with at least 10 years of Credited Service; or
Any age with at least 30 years of Credited Service

- **Amount**

Monthly Accrued Benefit

- **Form of Payment**

Actuarially increased single life annuity (optional);
10-year certain and life annuity (normal form of payment);
Actuarially reduced 50% joint and contingent annuity (optional);
Actuarially reduced 66²/₃% joint and contingent annuity (optional);
Actuarially reduced 75% joint and contingent annuity (optional);
Actuarially reduced 100% joint and contingent annuity (optional);
Any other actuarially equivalent form of payment approved by the Board; or
Actuarially equivalent lump sum distribution (automatic if the single sum value of the participant's benefit is less than or equal to \$5,000 or the monthly annuity is less than \$100)

(Note: A participant may change his joint annuitant up to two times after retirement.)

3. **Early Retirement Age and Benefit**

- **Age**

Any age with at least 10 years of Credited Service

- **Amount**

Monthly Accrued Benefit (payable at Normal Retirement Age); or
Monthly Accrued Benefit reduced by 5% for each year by which the participant's Early Retirement Date precedes his Normal Retirement Date (payable at Early Retirement Age)

- **Form of Payment**

Same as for Normal Retirement

Summary of Plan Provisions

Table V-A

(continued)

4. Disability Eligibility and Benefit

- **Eligibility**

The participant must have earned at least 10 years of Credited Service.

- **Condition**

The Board must find that the participant has a physical or mental condition resulting from bodily injury, disease, or a mental disorder which renders him incapable of employment.

- **Amount Payable**

A monthly 10-year certain and life annuity equal to the larger of (a) or (b), as follows, but offset as necessary to preclude the total of the participant's worker's compensation, disability benefit, and other District-provided disability compensation from exceeding his Average Final Compensation:

- (a) Monthly Accrued Benefit; or
- (b) 25% of Average Final Compensation

5. Delayed Retirement Age and Benefit

- **Age**

After Normal Retirement Age

- **Amount**

Monthly Accrued Benefit

- **Form of Payment**

Same as for Normal Retirement

6. Deferred Vested Benefit

- **Age**

Any age with at least 10 years of Credited Service

- **Amount**

Monthly Accrued Benefit (payable at Normal Retirement Age); or
 Monthly Accrued Benefit reduced by 5% for each year by which the participant's Early Retirement Date precedes his Normal Retirement Date (payable at Early Retirement Age)

- **Form of Payment**

Same as for Normal Retirement

Summary of Plan Provisions

Table V-A

(continued)

7. Pre-Retirement Death Benefit

In the case of the death of a vested participant prior to retirement, his beneficiary will receive the participant's Monthly Accrued Benefit payable for 10 years beginning on the participant's early or normal retirement date. In the case of the death of a non-vested participant prior to retirement, his beneficiary will receive the participant's Accumulated Contributions in lieu of any other benefits payable from the plan.

8. Average Final Compensation

Average of the highest three years of Compensation out of the last 10 years of employment (or career average, if higher).

9. Compensation

Compensation includes regular earnings, incentive pay, merit pay, vacation pay, and sick pay, plus all tax-deferred and tax-exempt items of income, but excludes lump sum payments; annual compensation in excess of \$200,000 (as indexed) is excluded in accordance with IRC §401(a)(17).

10. Credited Service

The elapsed time from the participant's date of hire until his date of termination, retirement, or death, provided that the participant made all required contributions. In addition, Credited Service includes prior service with the Oneco-Tallevast and Somoset Fire Districts.

11. Participation Requirement

All full-time general employees of the Southern Manatee Fire & Rescue District automatically become a participant in the plan on their date of hire.

12. Accumulated Contributions

The Employee Contributions accumulated with no interest; if the participant terminates his employment with less than 10 years of Credited Service, he receives his Accumulated Contributions in lieu of any other benefits payable from the plan.

13. Participant Contribution

3.50% of earnings

Summary of Plan Provisions

Table V-A

(continued)

14. Definition of Actuarially Equivalent

- **Interest Rate**

7.00% per annum

- **Mortality Table**

Unisex mortality table promulgated by the Internal Revenue Service (IRS) for purposes of calculating lump sum distributions pursuant to Internal Revenue Code (IRC) 417(e)(3)

15. Plan Effective Date

October 1, 1999

16. Automatic Annual Cost-of-Living Adjustment (COLA)

All retirement and disability benefits, other than the retiree health supplement, include an automatic annual 3% cost-of-living adjustment.

17. Retiree Health Supplement

Participants receive a monthly post-retirement health supplement equal to \$15 for each year of service, with a minimum monthly benefit of \$50 and a maximum monthly benefit of \$450.

18. Deferred Retirement Option Plan (DROP)

A participant who reaches his Normal Retirement Age is eligible to participate in the DROP for a period of up to 60 months. Interest is credited on the DROP accounts at the rate of 6.50% per annum.

Summary of Plan Amendments

Table V-B

No significant plan changes have been adopted since the completion of the previous valuation.

RETIREMENT PLAN FOR THE GENERAL EMPLOYEES

INFORMATION USED TO DETERMINE THE NET PENSION LIABILITY

Employer's reporting date: *September 30, 2017*
 Measurement date: *September 30, 2017*
 Actuarial valuation date: *October 1, 2016*

Actuarial assumptions

Discount rate: *7.00% per annum (2.92% per annum is attributable to long-term inflation); this rate was used to discount all future benefit payments.*

Salary increases: *4.00% per annum*

Cost-of-living increases: *3.00% per annum for all benefits other than the health supplement*

Mortality basis: *Sex-distinct rates set forth in the RP-2000 Combined Mortality Table, with full generational improvements in mortality using Scale BB*

Retirement: *10% of eligible employees are assumed to retire during each of the three years prior to normal retirement age, 40% are assumed to retire at normal retirement age, 20% are assumed to retire during each of the two years following normal retirement age, and 100% are assumed to retire three years after normal retirement age; no retirements are assumed prior to age 50.*

Other decrements: *Assumed employment termination is based on gender, age, and service; for participants with less than 10 years of service, termination rates range from 15.00% for males and 10.01% for females with less than two years of service to 4.30% for males and 4.75% for females with between eight and 10 years of service; for participants with at least 10 years of service, termination rates range from 4.28% for males and 5.41% for females at age 25 to 0.00% at age 55.*
Assumed disability is based on gender and age and ranges from 0.067% for males and 0.040% for females at age 25 to 1.00% for males and 0.84% for females at age 55.

Non-investment expenses: *All liabilities have been loaded by 2.50% to account for non-investment expenses.*

Future contributions: *Contributions from the employer and employees are assumed to be made as legally required.*

Changes: *Since the prior measurement date, the mortality basis was changed from a 2015 projection of the RP-2000 Mortality Table for annuitants to the RP-2000 Combined Mortality Table with full generational improvements in mortality using Scale BB.*

DETERMINATION OF THE LONG-TERM EXPECTED RATE OF RETURN ON PLAN ASSETS

Investment Category	Target Allocation	Expected Long-Term Real Return
Core bonds	16.00%	0.58% per annum
Multi-sector	24.00%	1.08% per annum
U.S. large cap equity	39.00%	6.08% per annum
U.S. small cap equity	11.00%	6.83% per annum
Non-U.S. equity	10.00%	6.83% per annum
Total or weighted arithmetic average	100.00%	4.08% per annum

DISCLOSURES RELATED TO THE GENERAL EMPLOYEES' PENSION PLAN (continued)

PENSION PLAN DESCRIPTION

Name of the pension plan:	<i>Retirement Plan for the General Employees of the Southern Manatee Fire & Rescue District</i>
Legal plan administrator:	<i>Board of Trustees of the Retirement Plan for the General Employees of the Southern Manatee Fire & Rescue District</i>
Plan type:	<i>Single-employer defined benefit pension plan</i>
Number of covered individuals:	<i>11 (three inactive employee or beneficiary currently receiving benefits; no inactive employees entitled to but not yet receiving benefits; eight active employees)</i>
Contribution requirement:	<i>Employer contributions are actuarially determined; employees must contribute 3.50% of pensionable earnings; employee contribution requirement may be amended by City ordinance, but employer contribution requirement is subject to State minimums.</i>
Pension plan reporting:	<i>The plan issues a stand-alone financial report each year, which contains information about the plan's fiduciary net position. The plan's fiduciary net position has been determined on the same basis used by the pension plan and is equal to the market value of assets calculated under the accrual basis of accounting. This report is available to the public at the plan's administrative office; Retirement Department, Florida League of Cities, Inc., P. O. Box 1757, Tallahassee, FL 32302, (800) 342-8112.</i>

Description of the benefit terms

Employees covered:	<i>Full-time general employees of the Southern Manatee Fire & Rescue District</i>
Types of benefits offered:	<i>Retirement, disability, and pre-retirement death benefits</i>
Basic pension formula:	<i>2.50% of average earnings x service</i>
Early retirement adjustment:	<i>Early retirement pension is reduced by 5% for each year by which the early retirement date precedes the normal retirement date.</i>
Disability pension:	<i>Larger of basic pension formula or 25% of average earnings (if the participant has earned at least 10 years of service) Disability benefits are offset as necessary to preclude the total of the disability benefit, worker's compensation, and other District-provided disability compensation from exceeding average earnings.</i>
Pre-retirement death benefit:	<i>Basic pension formula payable for 10 years at early or normal retirement age (payable to the beneficiary of a vested participant) Return of accumulated employee contributions (payable to the beneficiary of a non-vested participant)</i>
Normal retirement age:	<i>Age 62 with at least 10 years of service, or Any age with at least 30 years of service</i>
Early retirement age:	<i>Any age with at least 10 years of service</i>
Vesting requirement:	<i>100% vesting after 10 years of service</i>
Form of payment:	<i>Actuarially increased single life annuity 10-year certain and life annuity Actuarially equivalent 50%, 66⅔%, 75%, or 100% joint and contingent annuity Any other actuarially equivalent form of payment approved by the Board of Trustees</i>
Average earnings:	<i>Average of the highest three years of pensionable earnings out of the last 10 years</i>
Cost-of-living adjustment:	<i>3.00% per annum for all benefits other than the health supplement</i>
Health supplement:	<i>\$15 x service, minimum benefit of \$50.00 per month, maximum benefit of \$450.00 per month</i>
DROP:	<i>A deferred retirement option plan (DROP) is available to those participants who have attained their normal retirement age and individuals may participate in the DROP for up to 60 months; DROP accounts are credited with interest at the rate of 6.50% per annum.</i>
Legal authority:	<i>The plan was established effective October 1, 1999 pursuant to District resolution and has been amended several times since that date.</i>
Changes:	<i>The benefit terms did not change from the prior measurement date.</i>
