Fire / EMS Report:

This month the training division had a very busy month. We hosted an Incident Strike Team Leader class thru Division of Forestry. This class was attended by both Manatee County personnel as other agencies around the state. This was a free class that was 4 days in length. The next class we hosted was Understanding Performance Based Design. This is the first of six classes needed for Fire Code Administrator. This class was attended by prevention personnel from the tri-county area. This month thru Cigna grant money we also had a guest speaker come in and do in-service with all personnel on Post Traumatic Stress Disorders. Finally this month we hosted the Post Decon Fire seminar. This class was attended by fire departments throughout the state of Florida.

September Training Topics: Group Fitness
