## **Fire / EMS Report:**

**The Training Division started strong in the Month of March. Our intent was complete practical testing for all certified drivers on Ladder 339. This was to ensure that all personnel were proficient with the operations of this apparatus. We also placed Squad 328 into service, as such we certified personnel as drivers and had certification sheets completed and placed in the training files. We also were able to complete an air helicopter class. This training was done at the PSC to accommodate a training class as well as a practical helicopter landing.**
