F/F Disi – ACLS Provider
F/F Wojcik – ACLS Provider
F/F Pratt – ACLS Provider
F/F Collins – ACLS Provider
F/F Young – ACLS Provider**

Fire / EMS Report:

The month was a very busy month for the training division. Even though Covid-19 precautions are in place and we have several restrictions to keep our personnel healthy we are still able to maintain an active training division. We completed our bi-annual ACLS class this month for all our current Paramedics. We completed two classes and our personnel are all now certified for the next two years. This month we also completed three promotions for our firefighters. The employees all passed a written exam, practical exam, and oral review board. Finally, this month we also completed our annual driver's obstacle course. I can honestly say we have created an extensive driver training program, which fire service apparatus accidents are on the rise in the US Fire Service.

July Training Topics:

**Group Fitness
Hurricane Prep & Policy Review
Exposure Control Plan
Drivers Training
Apparatus Equipment Review
EMS Protocol Updates
OIC Training**

State Certifications:

F/F Sigfrid – Haz-Mat Technician

Promotions:
