## Fire / EMS Report:

As we wrap up 2020 in the Training Division, I wanted to personally praise our personnel for their perseverance over the last 10 months. As you know we have really had to create new and innovated ways of training to keep our personnel safe during the pandemic. Ours guys and girls have really stepped up to the challenge by doing most of their training in quarters with their crews or on an internet platform. As this training was being accomplished our call load certainly did not fall off, we ran the same calls with the same emergencies and our personnel worked these incidents flawlessly with pride and professionalism we expect. This month we completed our 2020 annual promotions with two new personnel promotions. We were also able to complete some virtual training with our crews on Respiratory Emergencies.

January Training Topics: Group Fitness

Mobile Home Fires Search & Rescue Drivers Training

EMS Modules Updates Haz-Mat Leak Control ALS Cardiac Emergencies

**EVDT** 

State Certifications: F/F Baserva – Car Seat Technician
