F/F Craycraft – Tactics & Strategies
LT Foss – Disciplinary Issues**

Fire / EMS Report:

We started 2021 the right way by completing five personnel promotions in the Firefighter ranks. These personnel all completed their written and practical examinations followed by a review board. It is hard to believe these guys are all at the last step of the firefighter ranks, as the Safer Ten. This month the division also started working on the promotional process for Deputy Fire Marshal. This will be a written as well as a practical assessment in the month of February. Our fire side FTO personnel have also been working on scenarios for Search & Rescue, while our EMS FTO personnel have been working on getting two of our personnel ready to take the practical PIC testing in February. Finally, this month three of our latest new hires began their drivers training programs. The program can expect to take about eight to ten months to complete.

January Training Topics:

**Group Fitness
OIC Training Mobile Home Fires
RIC Drills
Drivers Training
EMS Modules Updates
Haz-Mat Response Guidelines
ALS / BLS Trauma Protocols**

State Certifications:
