Notwithstanding the schedule provided above entitled “all other buildings or structures” the District finds that within the District’s jurisdictional boundaries there is one (1) industrial complex under single ownership that has more than 2.3 million square feet of structures on a site of contiguous parcels or a site of parcels that would be contiguous except that they are dissected by one or more transportation rights-of-way. The District finds that said industrial complex possesses self-contained, internal fire suppression facilities within its buildings and structures that improve the industrial complex’s hazard classification such that the complex receives less of a special benefit from the District’s fire protection service. Therefore, in consideration of the internal fire suppression facilities contained within the industrial complex, the above referenced industrial complex’s non-ad valorem fire assessment shall be assessed at one-half the rate for factory/industrial, regardless of the actual use of the building.

3. The Board of Fire Commissioners hereby authorizes the Fire Chief, to review the non-ad valorem fire assessment rolls and note any corrections and/or adjustments to the assessment levy against each parcel of property within the District. Such authorization includes the authority and direction for the Fire Chief to transmit the non-ad valorem fire assessment roll, including corrections and/or adjustments to the Manatee County Property Appraiser for the purpose of placing such levy on the tax roll.

Adopted with a quorum present, this 17<sup>th</sup> day of May, 2018.
