**Fire / EMS Report:**

**This month the Division started prepping for the October promotions. We currently have Seven personnel who have eligibility to promote in October. These personnel will complete both written and practical examinations and have a follow-up review board to complete their promotional process. This month the Training Division also assisted MTC with the interview process for there new clinical / educational staff position. This month we also assisted the City of Bradenton Fire Department with an in-service of Squad 328. Our crews went over response objectives, incident staffing and operations, and available equipment with all their crews. A Member of training staff was on site all three days to assist in this training as needed. Also, this month the Engine 312 C-Shift crew assisted a local business with filming a pediatric cardiac arrest scenario to demo the new learning tools in advanced simulation manikins. Finally, this month our crews participated in the multi-company drills held at CHFR Station 3. Engine crews worked with CHFR, COB, and NRFR crews. A member of training staff was on site all three days to assist in these drills.**

**October Training Topics:**

**Group Fitness**
